Firewall (security groups)

Info

A security group will be added to all network interfaces. Add rules to allow specific traffic.

☒ Create new security group

☐ Select existing security group

Security group name - required

Web Server security group

This security group will be added to all network interfaces. The name can't be edited after the security group is created.
z, A-Z, 0-9, spaces, and _-./!@#,%&()*~|^`{}|'";:[]\$*

Description - required

Info

Security group for my web server

Inbound Security Group Rules

No security group rules are currently included in this template. Add a new rule to include it in the launch configuration.

Add security group rule
